

SintelSat sponsored Disaster Recovery Conference for Business Continuity in Long Island organized by the Contingency Planning Exchange (CPE) Long Island Chapter

New York – January 19, 2007- Sintel Satellite Services, Inc. New York sponsored the recent Disaster Recovery Conference for Business Continuity planning presented by the CPE Long Island Chapter. The conference was focused on how to protect businesses on Long Island from any potential natural and human-made disasters. Furthermore, satellite and wireless technology solutions for better disaster recovery planning & management were examined in the event.

Sanjay Singhal, CEO, Sintel Satellite Services, Inc. and Andy Weitzberg presented the disaster recovery and planning solutions and how satellite and wireless technologies can protect the business communications, data centers and critical information during the time of disaster and keep people safe. In addition, CPE stressed the need to have the DR plan to mitigate any kind of interruptions to help business managers communicate with customers, vendors, and employees during any crisis. Further discussions were held on spectrum analysis, WiFi, Wi-Max, fixed wireless. Public and licensed spectrum was overviewed.

The conference was a big success in bringing the Long Island businesses and local government together and was attended by Business continuity planners, emergency responders, security executives, risk and insurance managers, compliance officers.

The event took place in Hauppauge, New York on January 19th at Adelphi University.

About Contingency Planning Exchange (CPE):

CPE currently provides education on the latest technology and services available to protect professionals on Long Island. The organization also provides networking opportunities among professional resources to improve business continuity efforts. It supports disaster recovery and business continuity planning needs by offering the latest in recovery solutions which include protective applications, software and technology solutions and communication systems. CPE Long Island Chapter focuses on Long Island based resources to provide exchange ideas and best practices for disaster recovery and management. The goal of the organization is to generate permanent relationships among Long Island based companies, service organizations and local government services. These relationships are aimed to elevate emergency preparedness and business resiliency for Long Island Chapter members while serving the community at large.
