

FOR IMMEDIATE RELEASE

Sintelsat's CEO Sanjay Singhal Speaks at the Long Island Forum for Technology LIFT Wireless Round Table

Stony Brook, New York, July 11, 2007 – Sanjay Singhal, President/ CEO of Sintel Satellite Services, Inc. was invited to speak at the Long Island Forum for Technology LIFT held on July 10th at the Polytechnic University in Melville. Various member companies and representatives attended the LIFT Wireless Round Table event.

The presentation dubbed as “End to End Satellite and Terrestrial Communication Solutions” focused on how Sintelsat been able to provide high technology solutions in a global perspective. Mr. Singhal shared the company's top notch satellite and terrestrial communication expertise including it's experience in the emerging markets. Sintelsat has successfully established a worldwide network of field engineers that enables the company to provide quick response services for installation and maintenance to customers, Mr. Singhal said. Ongoing relationships with leading satellite and terrestrial communication vendors, allowed the company to supply world-class solutions in a cost effective manner.

About Long Island Forum for Technology LIFT

LIFT provides world-class services created to immediately impact the bottom line of Long Island firms. Its team of manufacturing and business professionals is trained and certified by the Department of Commerce and leading industry associations to deliver a wide array of programs directed at needs analysis, process efficiency, technology evaluation, facility layout, quality programs (ISO, AS9100, ISO 14000), six sigma solutions, lean enterprise transformation, strategic planning, job costing, market research, prototype development and capital equipment selection. LIFT serves as NYSTAR®'s designated Regional Technology Development Center for Long Island and one of nearly 350 MEP locations across the country.
