

FOR IMMEDIATE RELEASE

SintelSat Meets the Minister of Communications and DG of ITPC, Iraq

Stony Brook, NY, October 14th, 2008 – Sintel Satellite Services (SintelSat) had the honor of greeting the Minister of Communications H.E. . Farooq Abdulqadir Abdulrahman and Director General of ITPC, Mr. Kassim Mohammed Jassim, who were the invited guests at the Iraq Telecoms 2008 conference in London. Mr. Sanjay Singhal, Chief Operating Officer, represented SintelSat and provided an update to the Minister and DG about SintelSat’s progress in Iraq and how the company is making significant effort to provide flexible, cost-effective, latest technology solutions in satellite communication, microwave, fiber and wireless solutions for the infrastructure rebuilding and economic development of the country. Mr. Jassim and the Minister of Communication, Iraq appreciated the company’s effort and provided fresh perspective on the challenges faced by fixed, wireless, satellite and mobile communications in Iraq.

SintelSat's Founder/COO Sanjay Singhal (far left) in a discussion with H.E. Farooq Abdulqadir Abdulrahman, Minister of Communications (third from left); Mr. Kassim Mohammed Jassim, Director General ITPC, Iraq (second from left); and ZAIN representative, the largest GSM operator in Iraq.

The conference provided key information on the current state of telecom in Iraq, the current regulations, efforts of various companies and how a partnership can be achieved between private companies and government. As an active telecom solutions provider in the region, SintelSat had valuable discussions and noted the input provided by all the major players including three GSM operators, Gateway license holders, government officials, past & current ministers, US Embassy and Multinational Force in Iraq. Mr. Singhal stated that the meeting was very useful in determining the Iraqi government’s future telecom plan, gateway licensing, and international fiber connectivity to the country. The presence of Mr. Singhal at the event confirmed SintelSat’s commitment and effort to continually provide cost-effective telecommunication solutions in Iraq and to the Middle East region.

The event was held at the Millennium Hotel in London on October 13-14, 2008. For more information, please visit www.iraqtelecoms.com.

About Sintel Satellite Services, Inc. (SintelSat)

SintelSat has evolved from a satellite systems integrator to a cutting edge ICT solutions provider company with global outreach, providing turnkey end to end communication & IT solutions, networks, and services using satellite, fiber, microwave and wireless technologies.
