

SintelSat Participates in the Caspian Telecoms Conference in Istanbul, Turkey

Stony Brook, NY, May 3, 2010 — Sintel Satellite Services, Inc. (SintelSat) participated in the 9th Caspian Telecoms Conference on the 28-29 April 2010 in Istanbul, Turkey. SintelSat presence in the event is a tremendous opportunity to promote its capabilities as a satellite and terrestrial solutions provider to participating nations in the conference. The conference is a platform for commercial and state telecommunications organisations to discuss, in detail, current issues in the telecommunications industry - including the licensing of telecommunications organizations, privatization and legal and financial problems.

Ms. Luba Fradkina, SintelSat representative in the Caspian region, has been successful in promoting ties with other delegates among other things. SintelSat has participated in the conference to get involve in the process of establishing standards and policies for the telecom industry in the region. The Caspian region has a great significance for SintelSat Space Program offering to the much anticipated telecom growth in the region. This program aims to build infrastructures to support growth by providing satellite services, VSAT broadband, mobile communication backhaul, pay TV services to name a few.

SintelSat representative Ms. Luba Fradkina with delegates from Central Asian Countries Telecom Executives at the Caspian Telecom.

Caspian Telecoms Conference is a two-day forum in which topical issues relevant to the telecoms industry can be discussed in detail amongst both commercial and state telecom organisations, including telecom licensing, privatisation, legal and financial issues. It also promotes parallel seminars and ICT exchange programmes between countries and companies. Participating states in the Caspian region include Turkey, Russia, Kazakhstan, Azerbaijan, Uzbekistan, Turkmenistan, Georgia, Tajikistan, Armenia, Ukraine, Belarus, Moldova, Mongolia, Romania, Greece, Afghanistan, Bulgaria, Iran and Kyrgyztan.
